

InUnison

**A health and safety
expert in your pocket.**

Introducing

InUnison provides a universal Occupational Health and Safety (OHS) system enabling any organization to cost-effectively create a culture of safety that is compliant to regulatory requirements. Our innovative cloud-based OHS platform improves worker adherence, streamlines occupational health and safety-related processes, and automates and improves health and safety compliance across your entire business.

What should you expect?

- Electronic Safety Program available to all employees on any mobile device.
- Event Reporting portal to enter all incidents, hazard IDs and near misses.
- Corrective Action notices are sent to your Inbox.
- Elimination of page turning, form completion and paper reminders.

Watch for your email invitation coming soon!
